News by Cable Today From All Over the World

Daniels and Payne Are Coming to Alaska

WASHINGTON—Today it was learned here that Daniels and Payne will both visit Alaska, sailing with the Admiral Rodman from Seattle July 10. They propose to obtain a close-up view of the Alaska situation in relation to the development of the Navy, and American commerce. Six destroyers will precede the Alaska cruise, lasting until August 15 though Payne and Daniels must necessarily return earlier.

SEATTLE—The Seattle Times this afternoon contains a long dispatch from J. J. Underwood at Washington telling of the intended visit to Alaska of Daniels and Payne. Mr. Underwood quotes Daniels as saying "The Northwest and Alaskan situation is very important. From a naval standpoint Alaska is much more important to this nation than people realize."

"We probably will spend several days in Alaska," said Payne, "I want to get a picture of that situation, especially the coal fields so as to have some first hand information. This will be checked carefully with data from engineers now in the field."

LONDON—The Exchange Telegraph today received a dispatch from Londonderry stating that a pitched battle had been raging in the streets of that city since last night and that many dead and wounded were lying in the streets.

WASHINGTON — A special squadron of war vessels is to be formed for duty in connection with possible developments in Mexican Central American waters, Koontz, acting secretary of the Navy announced today.

DILLON—Albert Johnson, negro bandit, was killed in a running fight with Under Sheriff Williamson, a dozen shots being exchanged following Johnson's attempt to hold up Agent Seifert employed here by O. S. L. railroad.

VANCOUVER — Six persons perished in a destructive fire Sunday night in the fashionable six-story Balmoral apartments. Charles Denny of the Pacific Steamship company and Miss McLennan are the only ones identified. Three of the guests were trapped in an elevator which became wedged between two floors.

LINCOLN — Discussing the possible Democratic candidates for the presidency William Jennings Bryan in an article in the Commoner published today declares that McAdoo is handicapped as a candidate by his close relationship with the President. While admitting that the President himself need not be considered in the matter Bryan nevertheless takes a gloomy view of the outlook for McAdoo.

SAN FRANCISCO — Rumblings of democratic discord on the prohibition issue became hourly more ominous today as delegates and party chiefs arrived in increasing numbers for convention. Burleson's declaration for modification of Volstead Act indicates a lively fight in prospect.

LONDON — Londonderry was again the scene of rioting yesterday. There was fighting between opposing parties of Unionists and Nationalists who shot over barricades that had been erected at various vantage points.

WASHINGTON—Since the beginning of the World War, the United States has rolled up a trade balance of \$17,000,000,000 against the world, the Department of Commerce has announced.

MEXICO CITY—A call for national elections issued by the Secretary of the Interior yesterday fixes the date for congressional elections on August 1 while the new President will be chosen September 5th.

SEATTLE—Belief by one man that another had stolen a collie pup from him, led to the fatal shooting of Peter Angell and the arrest of Charles Davis, the slayer. Angell left a family consisting of a sick mother and six children in destitute circumstances. The shooting climaxed the fear of several months over the dog's disappearance. The assertion of Gustaf Angell, the 11-year old son of the victim, that he believed Davis had stolen the puppy started the fatal quarrel.

WASHINGTON—The Japanese have lodged what amounts to an informal protest with the State Department against the proposed legislation in California providing for absolute prohibition of ownership or lease of land by Japanese.

LOS ANGELES — Yesterday started off with another earthquake which caused Los Angeles and vicinity to tremble. It occurred at 4:20 in the morning and was sufficiently strong to awaken sleepers but apparently no damage was done.

WASHINGTON, D. C.—The water power bill, permitting the granting of 50-year leases on water power sites in Alaska and elsewhere has been signed by President Wilson.

For a time it was believed that the bill, along with a number of others had been killed by "pocket veto." Later it was reported that the measures were still in the President's possession, but nothing was known as to the fate. The President has also signed the act authorizing the enlistment of non-English speaking citizens and aliens in the regular army.

The joint resolution of Congress repealing most of the war time legislation was not approved by the President. The joint resolution authorizing the appointment of a commission to confer with the Canadian government regarding the export of pulp and paper to the United States was also disapproved.

A bill authorizing the secretary of war to transfer certain surplus materials and machinery to the Department of Agriculture to be used in road building was also lost.

The City of Seattle arrived in Wrangell Tuesday morning with the following passengers for this port: Mrs. John T. Towers, Mrs. Seavey, Miss Adele Goss, Miss Margaret Uhler, Miss Margaret A. Grant, Neil Grant, Miss Erma Grant, John Johnson, Mrs. Bertha Skelton, Malvern Skelton, Adele Skelton, Mrs. Hoover, Mrs. R. Mullen, Mrs. F. B. Hovey, Levi Merrill, Roy Everett Campbell, Harry Burmeister, Kelley D. Deadrick, Harold A. McKenzie, Floyd L. Hoggatt, E. N. Phelan, Geo. F. Nadeau, Dick Fayn, Art Wold, Mrs. Seid Chong and the Misses Chong.

Mrs. M. O. Johnson has been appointed local representative for the American Library Association which is conducting a campaign for funds with which to "promote the means of self-education for the millions who are without it, and to help create a finer citizenship" by securing "Books for Everybody."—their slogan. \$2,000,000 will be raised, not by any drive, but through libraries or people interested in libraries. In accordance with the plans of the campaign, Mrs. Johnson is asking every local organization to contribute something. Individual subscriptions, whatever sum anyone can afford, are also gratefully received. Literature explaining the work of the organization is being distributed this week and contributions may be left in various public places or given to Mrs. Johnson who will forward them to the Territorial Director, Mrs. F. A. Metcalf of Juneau. The campaign ends June 30th so there is no time to lose. Wrangell always comes to the front in any good cause and it is hoped that a generous sum can be sent in from this community.

Miss Belle Hood who has been attending the University of Washington was aboard the City of Seattle Tuesday morning en route to her home in Juneau. While the vessel was in port she received the greetings of many of her Wrangell friends.

Charles Goldstein of Juneau was aboard the City of Seattle Tuesday morning. He spent several hours visiting with the people of Wrangell while the vessel was in port.

Sam Baker, the well known travelling man, arrived from the West Coast Tuesday morning at 2 o'clock. Three hours later he was a very happy man. The City of Seattle had arrived in port with Mrs. Baker and their little two-year-old son on board. They were en route to their home at Juneau and Mr. Baker joined his family for the remainder of their journey.

When the cableship Burnside was in port last week some of the local fans got up a game of baseball between Wrangell and the crew of the Burnside. The game resulted in a score of 7 to 0 in favor of the visitors.

The Civic Improvement Club will meet Friday (tomorrow) afternoon at 3 o'clock at the home of Mrs. Barnes. The club is now identified with the Alaska Federation of Women's Clubs, of which Mrs. Josephine Valentine of Juneau is President.

Children 25 cents

Shine Hosts Will Be Here Next Tuesday

Wrangell will have as its guests for several hours next Tuesday afternoon between 500 and 1000 visitors, among whom will be many notable personages from various parts of the United States. Both the Jefferson and Spokane will have full passenger lists made up almost exclusively of Nobles of the Mystic Shrine and their ladies. They will have with them their famous band. This pilgrimage to Alaska by the Shriners will be SOME EVENT as it will be the first time in the history of Shrinism that the Imperial Divan have instituted the Shrine degree, and that it will be done right goes without saying, with all the frills and thrills thrown in.

The vessels are scheduled to arrive in Wrangell at 5 p. m., Tuesday, June 29th, leaving at 8 p. m. On the return voyage the Shriners will arrive in Wrangell at 6 a. m., on the morning of Sunday, July 4, leaving at 8 a. m. Let the people of Wrangell display the Shrine emblems next Tuesday and make the visitors feel that their coming to the land of the totems is welcomed not only by resident Shriners, but by everybody in town.

Governor Thomas Riggs, Jr., was aboard the Spokane which was in port all of Sunday forenoon. The Governor spent the whole time the vessel was in port mingling with his numerous Wrangell friends. He was en route to San Francisco where he will attend the Democratic National convention. He will visit several other cities before returning north.

D. M. Kean, foreman in charge of Government work on the Stikine, returned Tuesday on the Princess Mary from a short visit to Prince Rupert.

Harry W. Gartley, president of the Willson & Sylvester Mill company, returned Tuesday on the Princess Mary from a short business trip to Prince Rupert.

Wm. Foster, the veteran merchant of Telegraph Creek, arrived here on the Hazel B No. 4 Friday. He left on the Princess Alice for a trip to Ottawa, Montreal, and other eastern cities.

The Civic Improvement Club having been advised that Governor Riggs is interested in the preservation of the Indian relics of Alaska, sent him a communication recently regarding the Wrangell totems and the Shakes' place, without knowing that steps had already been taken to organize The Alaska Historical Association. In his reply, the governor assured the club of his support and stated that Shakes' house in particular was borne in mind in the Articles of Incorporation and that its preservation would be one of the first endeavors of the Association. The Civic Club, backed by a committee from the former Chamber of Commerce of Wrangell, is desirous of making the Shakes' place a communal house where would be assembled the curios of the community.

Dr. T. W. Buschmann and bride were passengers on the Princess Mary from Vancouver to Ketchikan. They will probably arrive in Wrangell today for a visit with the bride's parents, Mr. and Mrs. F. E. Bronson.

The Ripley Fish company shipped 86 boxes, the Co-operative Association 20 tierces, and W. C. Waters 4 tierces on the Jefferson last Sunday. Louis Olsen shipped 2 boxes and 1 tierce on the Spokane last Sunday.

Robert E. Taylor, a business man from Hyder was aboard the City of Seattle Tuesday morning. Mr. Taylor is an enthusiastic booster for Hyder and is confident of a great future for Alaska's newest city.

Mrs. Charles West and daughter, Imogene, left on the City of Seattle Tuesday morning for Petersburg to join Mr. West there for a few days' visit in the home of his sister, Mrs. Woodard.

Mrs. F. B. Hovey arrived from Blaine, Washington, on the City of Seattle Tuesday morning. She came North to join her husband who is foreman for the Alaska Sanitary Packing company.

We would call attention to the rare musical treat promised by the Ladies' Guild at St. Philip's Gymnasium in presenting Mrs. John T. Towers. Mrs. Towers, who is spending the summer in Alaska, is from the Boston Conservatory of Music, and has a wide reputation both in Eastern circles and on the Pacific Coast as a vocalist and pianist.

The entire proceeds of the concert will be used in replacing the walk in front of the Episcopal Church.

Mrs. G. K. Oakes left Sunday for her home in Everett, Wash., after spending several months in Wrangell. Mrs. Oakes is the mother of Mrs. Charles Olson.

Mrs. Sivertson and little daughter went to Juneau last week where Mrs. Sivertson will be under the care of Dr. L. P. Dawes for a time.

George Bidwell was a Wrangell visitor today. He will go South on the City of Seattle, returning on the same boat from Seattle with Mrs. Bidwell.

Miss May Terry arrived from Seattle last week on the Princess Alice to spend her vacation in Wrangell as the guest of Mrs. H. D. Campbell.

W. A. Vreeland of Tokene is in Wrangell this week. Mr. Vreeland will make a trip Outside before returning to Tokene.

Billy Wright, miner and prospector, arrived from Sulzer on the Princess Pat Tuesday morning to spend a few days in Wrangell.

Mr. and Mrs. Paddy Thomas returned last Sunday from Juneau, where they went for medical attention for Mrs. Thomas from Dr. L. P. Dawes.

A. H. Range of Portland has been in Wrangell the past few days. Mr. Range recently patented a machine for cleaning crabs. He is here considering Wrangell as a location for a crab canning cannery. There will be a meeting of the citizens at the town hall this evening for the purpose of going into the matter with Mr. Range.

Mrs. George A. Barton and little daughter returned from Petersburg Sunday on the Jefferson. They will leave for Shakan tomorrow on the Princess Pat.

The Cedric was bought last week from Mrs. Hannah Ottesen by the Wrangell Cooperative Association who also bought another scow to use in their business.

Rivers of Cassiar May Be Made Fully Navigable

Major George B. Hull, Divisional Engineer of the Department of Public Works of the Dominion Government arrived from Prince Rupert on the Princess Mary Tuesday morning and left that night on the Hazel B for Telegraph Creek. Major Hull was accompanied by D. M. Kean of his department and together the men will make a trip traversing the Dease river from Dease lake to Liard Post investigating the river and reporting on the work necessary to be done to make the river navigable for power craft. Heretofore, the Hudson Bay company has had its supplies for the store brought in and its furs, etc., taken out semi-annually by a fleet of bateaus.

The Dominion Government has been asked for an appropriation to make the Dease, Iskut and Stikine rivers fully navigable and there is no doubt that the appropriations will be granted as the prospects of the Cassiar country are brightening to such an extent as to make better transportation facilities imperative.

H. Reed arrived in Wrangell Tuesday morning on the Princess Mary. He was en route to Telegraph Creek. Mr. Reed was one of the members of the party employed on the International Boundary Survey in the Cassiar country in 1904. During that time he became interested in the mineral resources of that region and brought out numerous samples of ore. In 1915 he went to France and served throughout the war. On his return to Vancouver, he took a year's work in Mineralogy in the University of British Columbia which only increased his interest in the Cassiar, so that he is returning in company with a lieutenant in the British Navy to prospect and investigate mineral outcroppings on the south fork of the Iskut. They will be joined later in the summer by the Professor of Mineralogy from the University of British Columbia.

Dick Howard was a Princess Pat passenger Tuesday morning from the West Coast. Mr. Howard came in to meet M. J. Bugge and J. H. Rodgers of Victoria who left with him on the Hazel B to go up the Iskut River to examine some mining properties in which Mr. Howard is interested.

Mr. Bugge is a mining promoter and is taking Mr. Rodgers in to get his opinion on the properties.

Mr. Rodgers is a brother of the late M. K. Rodgers who constructed the breakwater at Kattalla. The Rodgers brothers, both of whom were mining and civil engineers, later spent \$500,000 developing the famous Granby mines at Observatory Inlet, B. C. before selling them to the present owners. The mines now represent an investment of \$15,000,000.

The Christian Science Society of Juneau announces a free lecture on Christian Science by William W. Porter, C. S. B., of New York City and member of the Board of Lectureship of the First Church of Christ Scientist, Boston, next Tuesday evening, June 29 at the Coliseum Theatre in Juneau.

Mrs. W. W. McLaughlin is leaving tomorrow on the Princess Mary for Everett where she will spend the summer with her parents, Mr. and Mrs. G. B. Trubshaw.

Local News

Thor Hofstad was a passenger for Ketchikan last Sunday on the Jefferson.

Ludwig Berg returned to Petersburg Sunday morning from a business trip to Wrangell.

Charles Morse returned home Sunday morning from a short trip to Juneau.

Margaret McCormack returned home Sunday morning from Juneau where she has been visiting friends.

Miss Margaret Uhler arrived home on the City of Seattle Tuesday to spend her summer vacation in Wrangell.

Superintendent C. W. Hawkesworth of the U. S. Bureau of Education was a passenger aboard the Jefferson Sunday morning for Seattle.

Mrs. John T. Towers and her mother, Mrs. F. E. Seavey arrived on the City of Seattle Tuesday for a touch of camp life on Kupreanof Island.

R. B. Hunter who recently arrived from the States on the Princess Alice returned on the Jefferson Sunday from a short business trip to Juneau. Mr. Hunter is a brother of F. H. Gold.

Mrs. B. Y. Grant and Mrs. S. C. Shurick returned on the Jefferson last Sunday from Juneau where Mrs. Grant underwent a surgical operation in St. Ann's Hospital.

Mrs. Bertha Skelton, who went to Seattle last week, returned on the City of Seattle with her children Malvern and Adele who will spend the summer vacation in Wrangell.

Julius D. Weinstein, representing stores in Ketchikan, Juneau and Aberdeen, Washington, arrived Sunday with a large line of women's apparel which heshowed in the Wrangell Hotel sample rooms.

Lovell Rousseau was a passenger aboard the Princess Alice Friday night en route to his home in San Francisco from Whitehorse where he has been visiting his parents, Mr. and Mrs. A. M. Rousseau.

Miss Margaret Grant returned home on the City of Seattle from Seattle where she has been attending the University of Washington. She was happily surprised at Ketchikan by Neal and Erma Grant who had left here Sunday on the Spokane to meet her there.

Miss Jessica Don Carlos, of Los Angeles, a graduate of Stanford University, has been elected as principal of the Seward school for the coming term. Miss Don Carlos was for five years a teacher in Los Angeles high schools. For five months last year she was doing "welfare work" in the devastated areas of France.

George Vogt, for 24 years a resident of Alaska, was reunited with his son at Juneau this week whom he had not seen in all those years. His son was four years old when the father left for the North.

The Cordova House, a Cordova hotel, was recently bid in at marshal's sale together with another house and lot. The hotel sold for \$17,500 and the house for \$2,500.

More Pay for Jurors

Beginning the first day of the coming fiscal year, July 1, next, fees for both grand and petit jurors and also for witnesses have been given material increases, according to a statement made today by U. S. Marshal J. M. Tanner. Jurors, both grand and petit will receive compensation at the rate of \$5.00 a day, and witness fees will be advanced at the same time to \$3.00 per day.

The present rate of \$3.00 per day for jurymen and \$2.00 per day for witnesses will remain in effect until the close of Court business on June 30th, or the end of the present fiscal year. "This rate is too low," declared Marshal Tanner, "and our efforts to have it raised have at last been successful. All Federal officials have worked for years to bring about the change and an order just received from the Department of Justice shows that we have gained our object."

The new rate of compensation will put jurymen on an equal footing with those of other District Courts in Alaska. Local Federal officials are confident that it will do much to render jury duty less obnoxious as persons drawn on jury duty can at least serve thereon without expense to themselves as has not been possible heretofore.

The Toughest Rubber
That Was Ever Made

Most men around fisheries really "live in their boots." Footwear is your most important item, and you should buy carefully. Don't get a cheap brand or one that you are not sure of. Goodrich "Hi-Press" is your safest buy. When you buy Goodrich you get the benefit of fifty years' rubber experience—we know how to make the rubber tougher—the boots will wear far longer and keep your feet dry and comfortable. Don't accept imitations—look for the Red Line 'Round the Top. 60,000 dealers.

WANT SPECIAL SESSION OF CONGRESS

For Purpose of Taking Some Action to Relieve Paper Crisis

WASHINGTON—It has been learned here that there is a strong sentiment among many of the leading newspaper men of the country in favor of requesting President Wilson to call a special session of Congress for no other purpose than to pass upon the recommendations of the Senate Committee investigating the print paper situation. The publishers urge that there have been many special sessions of Congress called for far less vital matters than the present print paper situation.

Courtland Smith, president of the American Press Association, in an interview on this subject said:

"The publishers should remember that no other business interests ever hesitate a moment to ask for special legislation or a special session of congress, if they find themselves in a position that threatens their existence. The publishers have a commodity that is vital to the welfare of this country. The permanent or temporary suspension of newspapers would be a national calamity."

The Senate Subcommittee of Manufacturers adopted recommendations for the relief of publishers. This committee recommended that the Department of Justice institute proceedings under the Sherman and Clayton Acts against print paper manufacturers. The paper manufacturers were charged by the committee with "unjust, illegal and discriminatory practices." The present prices for paper were held by the committee to be "excessive and unwarranted."

The hurried adjournment of Congress prevented these recommendations from being carried out. In other words the legislators seemed more interested in getting out of Washington than in continuing in session for an extra day or two to give the publishers relief from an intolerable situation.

OTTAWA—Legislation, which, if passed, probably will restrict exportation of newsprint from Canada, will come before the House of Commons tomorrow in the form of a bill drawn for the benefit of Canadian publishers. The bill does not specifically mention newsprint, but provides that the governor in council may make reservations relating to the export of any article desirable for use by the Canadian people or lack of which would cripple Canadian industry.

MADRID—The newsprint shortage has forced the price of newspapers up to ten times a pound. The price of papers will go to 15 centimes. Maximum advertising rates are being established and the surface size of the papers limited to 13,000 square centimeters.

KANSAS CITY—The Mid-West Newspaper League has been organized here for the purpose of relieving the present paper crisis. The new organization starts off with every promise of becoming a big factor in the newspaper affairs

of the country. The League adopted a resolution recommending to the congress of the United States a bill limiting the number of pages of week-day daily newspapers to 24 pages, and Sunday papers to 48 pages. The resolution further recommends that the magazine sections and comic supplements of all newspapers be denied second-class privileges. The League also adopted another resolution denouncing the practice of denying paper contracts to small publishers thereby compelling them to pay the prohibitive spot price for their paper needs, to be unfair and un-American.

MONTREAL—A \$60,000,000 paper merger is foreshadowed by the amalgamation of the W. C. Edwards and Gilmour Hnghson companies. They will control 12,000 square miles of timber limits and 25,000,000 cords of pulpwood, or 1,100,000,000 feet of standing timber, with an annual output of 150,000 tons of paper.

SPRINGFIELD, Ill.—The Inland Press Association which is devoting much time to the paper situation reports that through its efforts more than fifty daily papers in the middle west have been saved from suspension.

PACIFIC GROVE, Cal.—E. B. Daingerfield, aged 93, who is the oldest newspaper man in California, was in attendance at the State Editorial Association. He exhibited copies of the Weekly Ledger published by him at Volcano, Calif., in 1855. The veteran editor said that it made him sick at heart to see so many worthy papers being forced out of business on account of the paper crisis.

NEW YORK—The Wall Street Journal states that the International Paper company is quoting print paper for delivery after October 1 at an advance of \$25 per ton over the price charged for paper sold during the first quarter of this year. The increase in the cost of paper over 1919 prices is 52 per cent.

COVINGTON, Ky.—June 27—The Kentucky State Press Association convened this afternoon with the largest attendance in its history. In calling the meeting to order the chairman stated that owing to the seriousness of the paper situation this convention would be a strictly "brass tacks" affair. Tomorrow morning the publishers will listen to an address on "The Print Paper Situation," by Benjamin S. Herbert, publisher of the National Printer Journalist of Chicago.

LONDON—British publishers are still wrestling with a very difficult situation on account of the almost prohibitive prices being charged for paper. From the highest authority on paper in England comes the information that the Scandinavian mills are quoting English buyers £70, or about \$350 a long ton, and this paper is inferior to that being manufactured in America.

CHICAGO—Victor F. Lawson, publisher of the Chicago Daily News, is today the hero of the newspaper profession in the United States. Owing to Lawson's mill connections he is one of a very few large publishers who has a big supply of paper on hand. Finding that there were a number of small papers in the vicinity of Chicago that were unable to get paper at any price and would have to quit business before the first of July Lawson has released 100 tons of print paper to be distributed among the smaller newspapers which are in dire need of paper at this time.

NEW YORK—Frank A. Munsey, one of the foremost publishers in the United States, says that he thinks it not unlikely that daily newspapers will be sold on the streets at 10 cents each in the near future unless there is a change for the better in the print paper situation.

NEW YORK—The International Paper company in a signed statement undertakes to justify the high

price of paper by stating that peeled wood is selling today at \$34 a cord delivered at the mill. More than three tons of peeled wood are consumed in the manufacture of one ton of print paper. The present scarcity of pulp wood is alarming [this is interesting reading for Alaskans] and prices are advancing from month to month. In this signed statement the International Paper company further undertakes to wash its hands of any responsibility for the present crisis by stating that "The one distressing feature about the newsprint situation is the temporarily excessive spot

market, which is not due to the manufacturers, but to causes too complex to discuss here."

CHICAGO—The Publishers' Auxiliary, which has a circulation of more than 50,000 appeared this week printed on wrapping paper.

WINNIPEG—Although the domestic production of newsprint is seven times the domestic consumption, the daily newspapers of Manitoba and Saskatchewan, for the second time in six months, are again facing suspension owing to inability to get newsprint.

Neither age, condition nor sex seems to be a bar to war activities in some shape or form. Slackers in either military, social or industrial circles are the exceptions that prove the rule. Everybody is willing and anxious to do his or her bit in the individual effort to mobilize the immense resources of the country in every direction.

The government has contracted with Chinese shipbuilding companies to construct four 10,000-ton cargo-carriers for this country, with eight others to follow. In executing these orders China may get the shipbuilding habit for herself and begin what would be a profitable development of her own commerce.

The gushy, mushy love talk of an eighteen-year-old kid is solemn, refrigerated, adamant and meaningless rhetoric compared with the sizzling, steamy, seething, confagatory baby talk handed out by an old widower of sixty-five when he has fallen for the wiles of a well-to-do widow who owns her own home.

Four years ago Frau Bertha Krupp, principal owner of the Krupp works, offered the long-range gun to the United States for use at the Panama canal on account of the intimidation it would produce. Judging by that effect on Paris, the United States escaped a bad bargain by not investing in it.

Exchange remarks profoundly that the way to get \$12,000,000,000 for war costs "is to tax wealth." And when you come to think of it how in Sam Hill could it be got by taxing poverty?

With every man his own bootblack, the war industry of the city will soon be on an entirely new footing.

The useless job is always the one the other fellow has!

There are croakers, and there are pessimists, and once in a while there is the chap who tells you things are at sixes and sevens with our war work, because he secretly wishes they were so.

In the forenoon the wheat crop is the largest ever; later in the day Washington advises that there is a shortage. A sugar famine is imminent the first part of the week; along about Thursday Washington says there is no famine in sight. Where, as the feller said, are we at?

G. W. UPSHAW,
Vice President.

Subscribed and sworn to before me this 23rd day of June, 1920.

[Seal] John E. Worden,
Notary Public in and for the Territory of Alaska. My commission expires Nov. 8, 1921.

COMMUNICATION

Noyes Island, Alaska,
June 12, 1920.

Ketchikan Chronicle,
Ketchikan, Alaska.
Gentlemen:

An item in your issue of June 4th, has been brought to our notice purporting to be the prices we are paying for King salmon in this district.

We do not know the source of your information, but will state that the prices named were not authorized by us and are misleading to the fishermen. The incident has also caused us no little annoyance.

The following are the prices we have agreed to pay for the season and which we are now paying for fish:

Red Kings, 18 pounds weight and over, 10 cents per pound.

Red Kings under 18 pounds weight, five cents per pound.

White Kings, all sizes, four cents per pound.

Coho's, 25 cents each.

The above are prices for "round" fish with two cents per pound additional for Red Kings dressed and one cent per pound for White Kings dressed.

We will be glad if you will make this correction by publishing these prices at an early date.

Yours very truly,
NOYES ISLAND PACKING CO.,
By R. E. HARDCASTLE,
Manager.

A man near Anchorage has four acres in mushrooms.

Cordova plans on celebrating two days this year—July 3d and 4th.

For the shave and haircut of satisfaction go to Ed Grigwire's shop, opposite the Drug Store.

FOR SALE—An Underwood typewriter. A big bargain at \$50. A new Underwood now costs \$125. Apply at Sentinel office.

Postal Inspector Alvah Eames will soon be transferred from Cordova to Seward and will have headquarters there in the future.
